

Bennu
Contracting Services, LLC

CAPABILITY STATEMENT

BENNUCONTRACTINGSERVICES.COM

At **Bennu Contracting Services**, we specialize in Building Inspection Services with a strong focus on Site Safety Health Officer (SSHO) and Construction Quality Management (CQM) support for prime contractors and government agencies. Our inspection and oversight expertise ensures construction quality, safety compliance, and operational excellence across a wide range of federal and commercial projects.

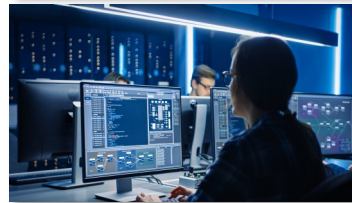

In addition to inspection services, Bennu offers comprehensive capabilities in site preparation, commercial and institutional building construction, and highway, street, and bridge construction. From initial land development and grading to complex vertical and horizontal construction, our team delivers safe, efficient, and compliant project execution.

We also provide comprehensive consulting and advisory solutions to help organizations improve strategic planning, enhance operational performance, and strengthen safety and quality compliance. Our services include expert oversight, process improvement, and specialized support tailored to meet the complex needs of both federal and commercial clients.

Our multidisciplinary approach integrates project management, field supervision, safety oversight, and quality assurance to deliver solutions that:

- Ensure regulatory compliance and safety at every stage of construction
- Provide accurate, detailed inspections and documentation
- Enhance operational efficiency through proven CQM and SSHO practices
- Support prime contractors in meeting government contracting requirements

With a reputation for quality, accountability, and mission-focused results, Bennu Contracting Services is a trusted partner for agencies and contractors seeking expert inspection, safety management, and construction oversight services nationwide.

CORE COMPETENCIES

- **Site Preparation Services:** Expert site preparation solutions including excavation, grading, land clearing, and demolition to support construction and infrastructure development. Our team ensures project readiness through precise execution, regulatory compliance, and safety-focused operations.
- **Commercial & Institutional Building Construction:** High-quality general contracting services for federal, commercial, and institutional buildings. Capabilities include new construction, renovations, and expansions, delivered with a strong focus on quality, compliance, and timely delivery.
- **Highway, Street, and Bridge Construction:** Comprehensive infrastructure construction services covering roadways, bridges, and transit-related projects. We deliver safe, durable, and compliant public works with an emphasis on efficiency and long-term value.
- **Administrative Management and General Management Consulting Services:** Advising organizations on strategic planning, operational efficiency, and organizational design to drive measurable improvements.
- **Comprehensive Consulting and Management Solutions:** Cross-functional consulting across real estate, logistics, information technology, and human resources to support complex federal and commercial initiatives.
- **Human Resources Consulting Services:** Helping clients attract, retain, and develop talent while aligning HR policies with operational goals.
- **Site Safety Health Officer (SSHO) Service:** Providing on-site safety leadership to ensure compliance with OSHA, USACE EM 385-1-1, and other federal safety standards. Includes hazard analysis, safety planning, incident prevention, and reporting to maintain safe, compliant work environments.
- **Construction Quality Management (CQM) Services:** Delivering USACE-certified quality control oversight to ensure all work meets project specifications, codes, and contract requirements. Includes quality planning, inspections, documentation, and continuous improvement processes.
- **Building Inspection & Compliance Oversight:** Conducting thorough inspections to verify construction quality, safety compliance, and adherence to project timelines for both federal and commercial projects.
- **Site Preparation & Infrastructure Construction:** Expert execution of excavation, grading, demolition, and land clearing to prepare sites for vertical and horizontal construction.
- **Commercial, Institutional, and Infrastructure Construction:** Managing and delivering construction projects including buildings, roadways, bridges, and public works, with a focus on safety, quality, and schedule adherence.
- **Strategic Consulting & Operational Support:** Providing tailored advisory services to improve organizational efficiency, strengthen compliance programs, and support specialized operational needs for government and commercial clients.
